Student Council, more commonly referred to as "STUCO," is an organization that connects the DHS students with the administration, allowing every student to have a voice. Not only does Student Council allow the DHS population to have a say in what goes on, but it also works hard in helping others. In this year's School Chest, Student Council raised over \$80,000 for Evan's Life Foundation, an organization that helps make the people who live in the Chicagoland area's lives easier and safer by giving grants. In addition to School Chest, there are many other ways that council reaches out to the community, including the homecoming parade, Lock-In, and Operation H.O.M.E. (helping others means everything)! Student Council takes advantage of every opportunity to reach out to the community.

The DHS WYSE (Worldwide Youth in Science & Engineering) team competes against other high schools at regional, sectional and state levels. More than 8,000 students around the state participate in this activity each year which tests student knowledge in seven areas related to engineering. During competitions, students are asked to take multiple choice tests in any two of the following seven areas: math, chemistry, physics, biology, English, computers and engineering graphics. At each competition, team scores are generated and compared, team trophies are given out and individuals who do exceptionally well earn individual medals. This competition involves most of the top academic students in the state of Illinois. Team members will put in a minimum of one to 1 ½ hours of study per week, during the six-month season

Some of these areas include science, mathematics, literature, art, history, geography, government, mythology, etc. This activity is IHSA sanctioned and has both a varsity and frosh-soph team. Our school competes in after school matches against all other teams in the Central Suburban League. The team also competes in the IHSA Tournament series and also some Saturday tournaments. Practices are usually held one or more times weekly at varying times.

Good Karma Cafe is DHS own version of open mic night. There is no need to audition - performers just come with a variety of acts to showcase. GKC is currently hosted by MCs Taylor Simpson and Matt Hilvers. Performances have ranged from acoustic rock and folk, to metal bands, spoken word, solo singing, poetry, performance art and comedy. This year, GKC added a new layer to the show - for a half an hour before the open mic starts, there is an open jam with a guest artist. A song is chosen ahead of time, and anyone who wants to can play along. GKC likes to have fun with the shows, and the MCs have come up with creative themes for each show - the Olivia Newton-John birthday party, the halloween costume party, the reveal a secret show and more... It's not a competition, but somehow gag prizes are always involved.

In Writing Club, we talk about writing, write about talking, and write about writing. In fact, we wrote this yearbook entry!

But besides that, Writing Club meets once a week to expel onto the page nothing but everything. During this time, we play games, conduct writing activities, and have an open-minded, close-knit community to share our own works or the works of others.

Various writing styles are explored through mimicry and discussion. Sharing days once a month serve as an opportunity to practice different methods of critiquing while getting feedback on one's work or admiring that of a published writer.

Deerfield High School participates in the world-wide FIRST competition. FIRST (For Inspiration and Recognition of Science and Technology) is a program for high school students to further their learning of engineering and robotics in a fun competition. The program promotes gracious professionalism and teaches students the life lessons they need in the field of engineering.

Students in FIRST have six weeks to build a robot, which must be engineered in order to play a game which is announced at the beginning of the season. The team's work starts at the brainstorming and planning stages. The designs for drive train, special features, and a game strategy are next in line. For the following weeks, the team works on building the robot and mastering the skills involved in driving, operating, and preparing for competition. It is a strenuous, intense six weeks, where members work around the clock in order to get the job done.

This is the team's fourth year of competition and have been honored with several awards, including a trip to Championships in Atlanta. The team fund-raises all of its money every year, and invites companies around the area to help sponsor the program. New for 2008, Underwriters Laboratories became a team sponsor with a \$14,000 donation. Such help alleviated more than half of the season budget.

Those pieces selected are then performed before the entire school by either the writers or student performers. The performances are low-key and relaxed. Anyone can submit writing to Stage Write and writers may or may not choose to perform their own work. Students must attend a few short rehearsals, and the performances are held during the school day.

The DHS Choral Program is much more than just a class period... it is a community and a family. Being in Chorus allows students to create music while making unforgettable friendships and memories. Students can improve their vocal skills by learning a wide variety of music styles. Chorus gives students the opportunity to sing in different languages across many different eras of music; from Classical to Contemporary, students sing sacred, secular, folk, spiritual, jazz, Broadway and pop tunes. Between Treble Ensemble, Concert Choir, Chorale, and Choraliers, the Chorus program has a lot to offer. It is a great way to meet people with similar interests. There are several choral concerts throughout the year, some of the most memorable being the Holiday and Spring concerts. Working together to learn a really challenging song and performing it for an enthusiastic audience is extremely rewarding. The choral groups have had the opportunity to perform in very special places around the world. To kick off this year together, students in Chorale performed at Orchestra Hall as the featured choir in Macy's "Day of Music."

# Thank You!

This page is dedicated to my O\*YAD staff for all of their time and PATIENCE. We had some serious hurdles to overcome, but I am so proud of how well you all handled the situations with professionalism and competency. This publication will have a very special place in my heart and when I look through this book after many years have past, I will always smile and think of you. Special props go out to Liz (my Editor-in-chief), Shoshana (Assistant Editor), Maggie (my Rock of Gibraltar), Dani, Laurie, Jason, Scott, Marc, Sarah, Mackenzie, Ari, John, Jenny, Micah and last, but not least, Mr. Regan.
